December 2008

Dear Friends of Purusha,

The historic passing of our beloved founder, Maharishi, almost one year ago, has inspired all of us on the PurushaSM program with a responsibility that is critical: to carry forward in its purity, for all generations to come, this most precious gift to the world from Maharishi—the Maharishi Purusha ProgramSM.

Therefore, to ensure the future of the Purusha program in North America we are resolved to quickly accomplish two essential objectives: (1) establish a permanent residence in North America, and (2) ensure the financial strength and stability of the Purusha program.

On the first objective, we are happy to report rapid progress. In late 2007, Maharishi worked for many months with Raja Bob LoPinto and Dr. Eike Hartmann, Global Country Minister of Vedic Architecture, to establish the Maharishi Purusha Capital of the Western World. Maharishi's vision was that this new capital will (1) provide us with a private sanctuary for long, undisturbed practice of the TM[®] and TM-Sidhi[®] programs and quiet attention on the world's 192 countries and (2) establish a permanent Invincible America community in close proximity to the nation's capital—for decades a cherished goal of Maharishi's that will greatly strengthen America's invincibility.

Already 171 acres of beautiful land have been bought 90 miles from Washington, D.C., in the Blue Ridge Mountains of West Virginia, and the project team has completed planning and engineering for Phase 1 of the project, which will house 120 Purusha program participants. (Phase 2 will accommodate 192 men, plus staff and guests, and Phase 3 envisions a Purusha community of more than 800 Yogic Flyers).

According to Raja LoPinto, "Construction of roads and buildings will begin by January 12, 2009, and we fully expect to welcome 120 Purusha from North America and Europe by autumn 2009—by which time America should also reach the goal of having 2500 Yogic Flyers in Iowa."

Establishing this new Maharishi Purusha Capital will be a great achievement, and will certainly inspire more single men to join the Purusha program. But equally pressing is the need to immediately increase donations to cover daily operating expenses and help achieve lasting financial strength and stability.

Due to increasing expenses and the current economic conditions, increased sponsorship has become critical at this time for the Purusha program around the world.

If you are already a sponsor, please consider increasing your support, and if you are not currently donating to the Purusha program, then we invite you to make a donation now, ideally by an automatic monthly withdrawal from your credit card or bank account. To make a donation or increase your donation, please fill out and mail the enclosed donor card or donate online at www.purusha.org.

The Maharishi Purusha Program depends on the support of dedicated, generous, wise benefactors like you. We greatly appreciate and thank you for whatever help and support you are able to provide, and we look forward to reporting our further successes very soon.

Jai Guru Dev

The members of the Maharishi Purusha Program

P.S. Funds are also needed at this time to ensure that our new permanent capital in West Virginia continues to progress without delay. If you are interested in helping create Purusha's new home, either by donating or by investing, please contact Raja Bob LoPinto at (301) 230-8900 or by email: RajaBob@Maharishi.net.
